

K137 - Coogee Knob

Product Description

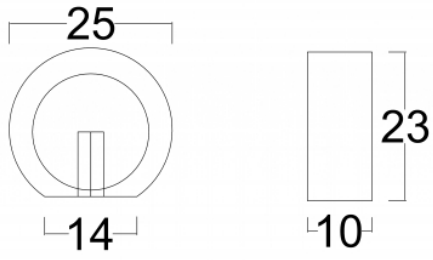

K137 - An Elegant Small Round Thumb Pull Knob. Great to use on all cabinetry styles to add a wonderful element of design.

Please note: This product is made from solid brass and as a living finish the appearance will mature and evolve over time. Brass will oxidize when exposed to air and its new environment which may develop signs of tarnish, age and character...this is the beauty of brass.

Product Attributes
